

Snapper 170

Centering vise Snapper 170, Dimensions 52 x 87 x 170 mm, Article-No. **540362**

Centering vise Snapper 170 for raw part machining of steel and non-ferrous metals, as well as plastics. Highest quality and reliability on 5-axis, as well as on all other machining center. Base body hardened and grinded on all sides ± 0.02 mm for exact positioning. Hardened and grinded clamping jaws, spindle thermally treated and coated. Guide pillars hardened, hard-chromium plated, grinded and polished.

For clamping pressures up to 250 Nm^2 (with a torque wrench).

Secure clamping on 3 mm clamping depth with 2 rows of teeth (pull-down spring return and positioning)

Clamping without prior shaping!

Snapper 300

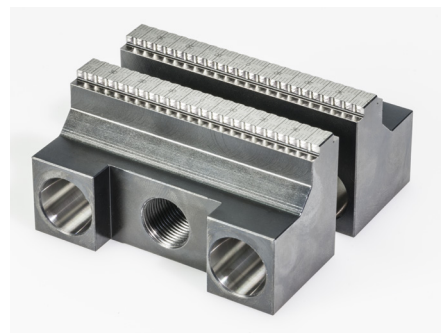

Centering vise Snapper 300, Dimensions 66 x 120 x 300 mm, Article-No. **540401**

Centering vise Snapper 300 for raw part machining of steel and non-ferrous metals, as well as plastics. Highest quality and reliability on 5-axis, as well as on all other machining center. Base body hardened and grinded on all sides ± 0.02 mm for exact positioning. Hardened and grinded clamping jaws, spindle thermally treated and coated. Guide pillars hardened, hard-chromium plated, grinded and polished.

For clamping pressures up to 400 Nm^2 (with a torque wrench).

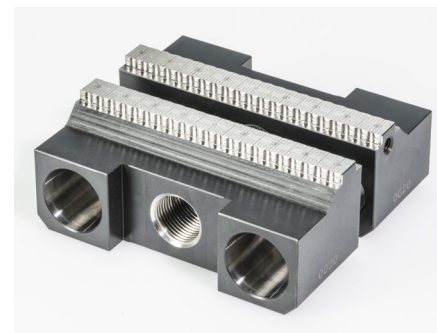

Secure clamping on 3 mm clamping depth with 2 rows of teeth (pull-down spring return and positioning)

Clamping without prior shaping!
